Lostf have better next time."

From the London Illustrated News. Differences. BY CHARLES MACKEY.

The King can drink the best of wine-So can I! And has enough when he would dine-So have I! And cannot order rain or shine-Nor can I! Then where's the difference, let me see, Betwixt my Lord the King and me?

1)o trusty friends surround his throne Night and day?
Or make his interest their own? No, not they! Mine love me for myself alone-Blessed be they! And that's one difference which I see Betwixt my Lord the King and me!

Do knaves around me lie in wait To deceive?
Or fawn and flatter when they hate, And would grieve ! Or cruel pomps oppress my state—
By my leave?
No! Heav'n be thank'd! And here you see More difference 'twixt the King and me!

He has his fools, with jests and quips, When he'd play; He has his armies and his ships— Great are they!
But not a child to kiss his lips, Well-a-day! And that's a difference sad to see Betwixt my Lord the King and me!

I wear the cap and he the crown-What of that! I sleep on straw and he on down-What of that! And he's the King and I'm the clown-What of that ? If happy I, and wretched he, Perhaps the King would change with me! North Carolina State Medical Society.

there who know the botany of medical plants-those beneficent productions of nature to relieve the ills of life; how many understand the acostic principles of the stethescope, now used by nearly every physician; how many have ever looked through, or know the principles or construction of the microscope, that valuable auxiliary of modern scientific investiga-tion? Of the fifteen hundred graduates that annually issue from the medical colleges of the Union, how many are there that have that mental training and knowledge of these preliminary studies, so indispensible to him who would know the labyrinthian ways of our science ? The subject of the address is "The Obstacles to Medical

Progress" and amongst the variety of "obstacles" the speaker classes unprepared and illiterate practioners. There is a the administration of the duties of which he had secured the without less of life. world of truth in the following: "I need not say that tortuous and rugged is the way that leads to the practice of medicine. He would revel in the

luxuries that lie waiting in her golden temple, must expect to do so, not by the arts of legerdemain, or the tricks of deas we intend to keep on hand a good assortment of all things ture, is the price he must pay. The ever-varying phenomena of life, in health and disease, the wide domain and diversified character of remedial agencies, the sound judgment and active sympathies necessary to constitute a successful practice of our heaven-born science, demand of the head and heart."-North Carolinian.

To Make Lager Beer .- Take a barrel, fill it with rain water, put in one pair of old boots, a head of last fall's cabbage, two short sixes, o sprig of wormwood, a little yeast.

Let it work, And when clear, You'll have excellent Lager beer. [Boston Post.

"Dr. Dawins informs us that the reason why the bosom of a beautiful woman is an object of such peculiar delight arises from hence-that all our first pleasurable sensations of warmth sustenance and repose are derived from this interesting

source."-- Boston Post. Dr. Darwin's theory was considered very satisfactory till tough, hard brained, practical Scotch metaphysicians suggested whether the same sensations of delight would be pro-duced in one who in his infancy had been "nursed with a bottle." This counfounded the doctor and upset his theory.

RACHEL, THE ACTRESS .- Her emaciated figure and hollow voice no longer excite any pity. "She merely goes about because she is too stingy to get buried," said the fat Jules Janin, the man who has written volumes in praise of her ac-ting, the very first time that he saw her after her return to

Meeting of the Citizens of Fayetteville. TRIBUTE OF RESPECT TO THE LATE HON. JAMES C. DOBBIN.

From the Fayettville Observer. Tuesday, 12 o'clock M., Aug. 4, 1857. At a meeting of the citizens of Fayetteville, called for the purpose of taking measures in testimony of their respect for the memory of their fellow citizen, and on their return with the body, should be joined ple at considerable length amid great cheering, when the late Hon. James C. Dobbin, who departed this life this morning, at half past eight o'clock, On motion of the Hon. Warren Winslow, R. P.

Chair, and A. McLean appointed Secretary. The Chairman communicated the object of the meeting in the following feeling and appropriate manner:

Fellow Citizens:-This meeting has been called, at brief notice, for the purpose of publicly testifying our respect for the memory of our esteemed and distinguished fellow citizen, the late Hon. James C. DOBBIN; and for the purpose of adopting such meas-

Thanks were returned for repair to the late residence of the deceased at 8 o'clock, Mr. Cardwell, and Mr. Thackeray addressed the peo-

military companies, Members of the Bar and the THE SUBMARINE TELEGRAPH .- The London Obcitizens generally; the whole Procession then to server, speaking of the submarine telegraph, says: Buxton, E-q., Mayor of the Town, was called to the repair to the Church. We need not say that the All doubts with respect to the retardation of the assemblage was a very large one, - the places of electric current are set at rest, and an extensive sebusiness being closed, the bells tolled, and every ries of experiments have shown that ten words may other demonstration of universal respect mani- be whispered under the Atlantic, from Ireland to At the Church, the Rev. Mr. Gilchrist, the Pastor day. The cable will be delivered in the first instance of the deceased, delivered a feeling and eloquent out of the hold of the ship through a trumpet-mouth Sermon. After which the Procession accompanied tube, elevated about thirty feet above the cone the remains to their last resting place, by the side of around which the rope is coiled. It will then pass over and under a series of "sheaved" or grooved ure as may be deemed suitable and appropriate to the occasion.

At a meeting of the members of the Fayetteville Bar, held at the office of William B. Wright, Esq., for the purpose of making arrangements for joining in the testimonials of public respect to be paid by our citizens to the memory of our deceased brother the Hon. J. C. Dobbin, W. B. Wright, Esq., was called to the Chair and W McL. McKay appoin the laid will be regulated so as to counterbalance and will thus afford perfect control over its delivery.

As in some parts the depth at which the rope is to be laid will be restored. be laid will be rather more than two miles and a half, Gen. John Winslow and Thos. C. Fuller, Esq., were appointed to draft resolutions expressive of the feelings of the there would be in the process of paying-out probably twice that extent of cable held in suspension, and as this weight in water is 14 cwt. to the mile, the necessity of adopting due precaution against the cable running away too quickly will be evident, and the machinery for providing against this contingency is of the most powerful description. Arrangements are also made in the event of any accident, for cutting away the cable and securing one end of it to large buoys fitted with mirrors, and provided with several miles of ordinary rope, and and an auxilliary steam engine is fitted up on board, to be employed in hauling in the buoy ropes when it is desired to take possession of the line again.

The batteries to be taken on board for signalizing through the cable while in progress of being submerged, are of most extraordinary power. The zinc plates employed weigh three tons, and with the boxes and the acid together, it is upwards of five tons .-That a battery of very considerable power will be required for the purpose of signalizing is clear from ENGLAND. - In Parliament the government had in. the nature of the duties required to be performed by timated that no active operations would be undertaken | the electric current. Starting from the deck of the in China, except the destruction of the war junks, Agamemnon, it would rush through the whole of the rope remaining uncoiled in that ship's hold, and then should be known. If unsatisfactory, hostilities would leaping overboard, it would drive down to the lowest depths of the Atlantic, skip along the mountains and Lord John Russell had obtained leave to bring in a vaileys of old ocean's bed, mount to the surface. board the Niagara, flash through the uncoiled rope new bill for the admission of Jews. Rothschild had on board that ship, and, ringing the signal bell, tell resigned his seat, but had been renominated, and will that throughout its whole distance of two thousand five hundred miles, it has met with no flaw and no The frigate Susquehanna had arrived at Liverpool. obstruction. When the little bell on board gives The Agamemnon had sailed for Cork with a division forth no accustomed sound, the engines of the steamof the Atlantic cable. The plan for submerging it ship will be reversed, the cable hauled in and exhad been changed. It is now contemplated to comamined until the damaged part through which the electric messenger has escaped shall be discovered .-FRANCE-In France the public attention is centred When once laid in its ocean bed, there will be no disturbing current to endanger its safety, and the Spain accepts the mediation of England and France nature of the plateau on which it will be deposited leads to the opinion that in a very short time the soft sand of the ocean bed wili form a perfect cover-The London Times of Saturday morning, in its city ing of the cable.
